Millions Saved.

Three million dollars is to be the saving to the people of the country as the result of the fact that Congressman Ben Johnson, of Kentucky is Chairman of the House Committee on the District of Columbia and, until he began to make a fight in Congress they did not know it. Even some of the members of Congress did not know it. The practice of the government standing one half of the taxes for residents of the District of Columbia is an old one. It has been going on for years. Custom is a hard thing to break down. But there is really no more reason why the people of the states should bear half of the expense of maintaining the District of Columbia than there is why they should pay half of the taxes of the residents of the capitals of states. The old policy of the government to stand one half of the taxes makes Washington a fine place for tax dodging millionaires to build their palaces. It might only be expected that when Mr. Johnson began his fight pressure would be brought to bear on him to force him to abandon it. It was the great newspapers of Washington flayed him and ridiculed him; The Senate set itself up against him, he was opposed on the floor of the House, and he had to fight, and fight hard, for every inch of headway he made.

But Mr. Johnson took the attitude that he was sent to Congress to serve the best interests of all the people and

not for the purpose of perpetuating soft snaps for the wealthy of the District of Columbia. Mr. Johnson, after a hard fight, succeeded in striking more than three millions of dollars out of the last appropriation bill for the District of Columbia.

A Failure.

A Chicago aeroplane manufacturing company has passed into the hands of a receiver because of poor business. The flying machines it expected to build did not go up; so the concern did. When the aeroplane was a brand new contrivance and public interest in its performances was at a white heat many persons expected that history as it had been written in the case of the automobile trade would repeat itself in the development of this new industry. They guessed wrong, and some who made such inconsiderate haste to get in on the ground floor now find themselves in the sub-cellar.

The demand for aeroplanes has shown little growth in the past year or two. Even to the ranks of the professional aviators there have been few additions. The big prizes that were at first offered at aviation meets are not so numerous. The barnstorming birdman, who managed to pick up considerably more than a living by giving exhibition flights and braving death, finds himself a lesser attraction than formerly.

As to the amateur aviators, engaging in the sport for the pure love of it, there are so few of them, in this country at least, that they are hardly worth mentioning. A flight or two usually suffices the boldest of them. If they land safely they declare that flying is the most wonderful sensation imaginable—but they delay putting in their orders for biplanes or monoplanes.

The aeroplane manufacturing industry may yet be placed on a firm and profitable basis, but the experiments will have to go much farther and accomplish a great deal more than they have yet succeeded in accomplishing before the business will yield many large fortunes.

Gaining in Strength.

Wherever former Governor Beckham goes he is greeted with the "glad hand." The candidate for United States Senator to succeed Senator Bradley is creating an impression that is doubling the strength of his candidacy and every place he visits invariably a warm reception is the result.

From the neighboring county of Scott comes a report that the former Governor paid a visit to the capital of the county and as evidenced by the enthusiasm of the voters he has gained a decided advantage over his opponent, Mr. Stanley. The news story says: "Former Governor Beckham was in this city yesterday in the interest of his candidacy for the United States Senate. He was given a most cordial reception by the Democrats of Scott county and received the greatest encouragement."

"From the expressions of the Democrats of Georgetown it is evident that Governor Beckham is a decided favorite over Congressman Stanley in this county in the Senatorial race, and he will undoubtedly carry Scott county in the primary by a large majority."

"The Georgetown News this morning says editorially that there is no question of the former Governor being able to sweep the country."

Mothers Can Safely Buy.

Dr. King's New Discovery and give it to the little ones when ailing and suffering with colds, coughs, throat or lung troubles, tastes nice, harmless, once used, always used. Mrs. Bruce Crawford, Niagara, Mo., writes: "Dr. King's New Discovery changed our boy from a pale, weak, sick boy to the picture of health." Always helps. Buy it at Oberdorfer's.

A WINTER COAT

not only keeps cold out, but conserves body-warmth; body-fat serves the same purpose, it enables us to resist unsettled elements and serves as the great source of our body-heat. Greater body-warmth means richer blood, more fat, not obesity but fat which the body consumes for warmth, vitality, resistance-power—as a furnace consumes coal for heat—Scott's Emulsion does this.

A teaspoonful after each meal makes body-warmth healthy, active blood—sharpens the appetite and makes all good food do good.

It drives out and keeps out colds by raising endurance-power and creating strength.
